Depth: 29 cm
Weight: 4.43 kg
Other features:

Description

Hood OMC6241B

High performance

Clothes, curtains or bedspreads soaked in kitchen scents? Not with Amica hoods! Our hoods are equipped with modern and extremely efficient turbines that completely remove kitchen odors. Get full comfort in the kitchen!

LED lighting

Poor lighting significantly hinders kitchen work. The same is true with constantly burning bulbs. To guarantee full comfort, Amica hoods have been equipped with an innovative system of energy-saving LED lighting. LEDs are extremely vital and emit bright, pleasant light that does not strain the eyes. Choose the Amica hood and enjoy the best solutions!

Silent work

Certainly you can prepare a meal while listening to music or watching TV. Thanks to the low level of noise emitted by the Amica hoods, you can do it without any problems. Quiet operation will be particularly comfortable if your kitchen is connected to the living room. This solution will be appreciated by all household members.

Fat filter

The island, chimney, telescopic and universal hoods have aluminum filters whose purpose is to separate the fats from the absorbed vapors. They are made of a material resistant to corrosion and are suitable for repeated cleaning. The effect: protection against the accumulation of fat deposits on walls, furniture and ventilation ducts.

Number of fan stages: 3

You can adjust the hood speed depending on your needs.
